Laura B. Crosby
Lawrence Berkeley National Laboratory Procurement
One Cyclotron Rd., Mail Stop 76-225
Berkeley, CA 94720-8288

Dear Ms. Crosby:

The Alameda Association of REALTORS® enthusiastically and whole heartedly supports the City of Alameda's proposal to locate the Lawrence Berkeley National Laboratory's Second Campus at Alameda Point.

The Alameda Association of REALTORS® is a trade organization whose membership consists of Realtors and affiliates who work in the real estate industry.

The Second Campus is exactly the type of economic development that many local businesses and residents have consistently supported in public hearings and workshops. It is a catalyst project that will create high quality jobs and can spur development throughout the community.

We feel that Alameda offers community support, location and a city that employees of Lawrence Berkeley National Laboratory will find conducive to a successful professional and personal life.

Without hesitation, we pledge our public support for the City's efforts to bring the Second Campus to Alameda Point.

Sincerely,

Troy Staten
